Start teaching them the basic colours first: Red, green, yellow, blue. Let them understand the concept of these basic colours before you go beyond these four colours.” says Asha, a child psychologist. To stimulate these young brains is a tedious task and demands patience and creativity. Here are 9 easy ways to teach colours to your toddlers:

18 months is the generally accepted age for teaching colors. Some kids learn their colors sooner and some learn them later. As a general rule of thumb, 18 months – 2 ½ is a great age for specifically teaching colors. You should always be reviewing colors with your child though, all the way up to kindergarten.

Kids learn at their own speed, so don't be too concerned if your child doesn't know as many colors as someone else his age. But if you suspect a problem, talk to your child's doctor about whether you should have your child tested for color blindness, which is the inability to distinguish certain colors.
